ABOUT

Date of Birth_24/04/1982 Nationality_French

The need to transform the matter, to build something that wasn't there before. My passion for Javascript and creating web applications has led me around half the world. I'm driven by the knowledge that design and programming make our world better.

As a Javascript and React instructor, I'm committed to share this passion and knowledge with other people and support their growth.

EXPERIENCES

_2017 and 2018

Freelance front-end developer and Instructor @ Social Hacker Academy - Athens Raised from beginner to freelance and then teaching level in web-development in two years. Do Freelance mission since May 2017, using mainly HTML, CSS, and Javascript (pure), and the JAM stack technology.

Since April 2018, teach Javascript and React at the Social Hacker Academy.
